MOB TAKES PRISONER FROM OFFICERS AT PISTOL POINT

At the points of pistols a mob of men, in autos, coming from where no one seemed to know, held up Deputy Sheriff John Powell, of Fleming county, and Chief of Police Fred Link, of Paris, last night about six o'clock, relieved them of their revolvers, and took from their custody Grant Smith, negro, aged forty, wanted at Flemingsburg for criminal assault on a young girl named Ruby Anderson, fifteen years old.

Powell arrived in Covington, Sunday night with his prisoner from Pontiac, Mich., to which point the negro had been traced and placed under arrest, pending the arrival of the Kentucky officer. He was held in the Covington jail for safe-keeping, and started to Paris yesterday afternoon over the Louisville & Nashville, the officer intending to remain here last night, and take the early train to Flemingsburg this morning. Powell wired Chief of Police Link here of his intention and asked him to meet him at the L. & N. passenger station in this city and help take the man to the Paris jail. Chief Link met them as agreed and started with them in his automobile to the jail. When leaving the station they noticed they were being followed by an auto containing four men, but attached no special significance to it, proceeding on their way.

When at a point near the Windsor Hotel several autos which had been parked there dashed out, filled with men. Several of the men got out of the machines, leveled revolvers in the faces of the officers and while others disarmed them, took the prisoner, and placed him in another auto, guarded by four men. The men told the officers they could get the handcuffs that had been on the negro after they were through with him and reduced him to ashes. Powerless, the officers could do nothing against an overpowering force. The abductors went on down to the jail, where several more automobiles were stationed, and with a final admonition to the officials to not try to follow them, the whole bunch hastened out the Maysville pike, and were soon lost to view. Sheriff Powell stated that he did not know any of the men in the mob.

From the smooth manner in which the forcible taking of the prisoner from the officers had been carried out it was evident that it had all been carefully planned and every precaution taken to make it a success. The officials were taken completely by surprise, and were disarmed before they could even make a pretense of resistance. The members of the mob were not disguised and proceeded about the business in hand with a cool, determined manner that left no doubt of their intention to get the negro and take him away. All the points of vantage were covered, and no one in the vicinity had an inkling of what was shortly to transpire until the actual scene was being staged.

The "mob" was a law-abiding one in every respect and was complying with the provisions of Gov. Morrow's new law, which required that prisoners charged with a crime of the nature of Smith's should be hung in the county in which the crime was committed.

It was reported that the mob had stopped at Millersburg and hung the prisoner from the railroad bridge there, but inquiry developed that such was not the case. They proceeded through Millersburg at breakneck speed and were evidently intending to proceed to Flemingsburg or vicinity by a roundabout route.

The crime for which Smith was wanted was committed near Flemingsburg on the same day of the riot at Lexington, on February 9. Smith made his escape, and had been heard of at different places on several occasions, but managed to elude the vigilance of the police until, through the clever work of a detective agency, he was finally located at Pontiac, Michigan. The Flemingsburg officers were notified of his arrest, and extradition papers being obtained, Deputy Sheriff Powell was sent to bring him back. While in the Covington jail Smith stated to Sheriff Powell that he was innocent of the charge, but admitted that he had been employed by the girl's father. In her statement to her father and the officers, Miss Anderson described Smith accurately and told them that he had been at work about the place a short time before the crime was committed.

COUNTY TAX COMMISSIONERS MUST VISIT PROPERTY

Governor Morrow signed the bill of Senator Auxier to require county tax commissioners to visit the property of the taxpayers before making assessment. The enactment of this law puts the county tax commissioners in the same status in making assessment as they occupied before the new tax laws were enacted.

The Governor also signed the resolution for the appointment of a commission to obtain an option on Federal Hill, in Nelson county, where Stephen C. Foster wrote "My Old Kentucky Home."

The Bryson bill to legislate boxing became a law without the signature of the Governor. The bill creates an athletic commission to regulate boxing.

The Governor vetoed the bill of Senator Perry to regulate concerns making a business of disposing of bodies of dead animals, on the ground that there is no necessity for the law, many objections to the bill and no corresponding benefits to be derived from it.

The bill provides that the State veterinarian issue licenses to persons engaged in the business of gathering up and rendering bodies of dead animals.

THE MASSIE MEMORIAL CAMPAIGN.

"Say, aren't we about being 'campaigning' to death?" said a Paris man, the other day, when the subject of the many drives and campaigns came up in discussion. "Verily," replied another man, "we are in the midst of an entirely surrounded by campaigns and drives but to my mind none of them approaches in interest the Massie Memorial Hospital campaign. For that is a strictly local affair, and not in any way disparaging any of the other movements, we will have a chance to know what is to be done with the money we are asked to contribute. There is no chance for it to get away from us, and I for one, am willing to bank my faith in the generosity of Bourbon county people."

The campaign is still on, as the amount needed has not yet been raised. There is urgent need for the money, as we have been told so often, and it must be raised. It will never be said that the people of the county, the fifth richest in the State, have set a seal of disapproval on so worthy an object. The soliciting committee is still in a receptive mood, and anyone desiring to make a contribution, however small, need feel no hesitation whatever in sending it in. Now is the time.

POLICE LOOKING FOR MAN FRIGHTENING WOMEN.

Complaints have been made to the Paris police department regarding the actions of an aged white man, who has been reported as annoying little girls and nurses from the Massie Memorial Hospital, while they were crossing the footbridge under the Louisville & Nashville railroad.

One little girl was so badly frightened by the man's actions that she came to her home on Mt. Airy avenue almost in hysterics. Others have reported similar experiences. The police are making an effort to apprehend the man, having been given a good description of him.

FIRE COMMITTEE TO PURCHASE AUTO TRUCK.

Mayor E. B. January, and the committee, Councilmen Doyle, Burke and Spears, appointed at a recent meeting of the Council to consider the purchase of a new fire-fighting apparatus for the Paris fire department, will leave to-morrow or Thursday on an inspection tour of the different plants.

On their trip they will visit St. Louis, Cincinnati, Indianapolis and other cities, where they will inspect the workings of different auto trucks, which they have under consideration, and will be guests of the city and representatives of the manufacturers at each place. It is their intention to purchase an auto truck, with pumping attachment having a capacity of 750 gallons a minute. This is something that has been badly needed here for a long time.

While the Paris department is fairly well-equipped, it would be handicapped in case of a big fire, as the present apparatus would not furnish pressure or capacity enough to cope with a serious conflagration. The committee will make the trip determined to select the best and most approved type of machine, one that will do all claimed for it, and which will make Paris a safe place in case of fire, or at least, greatly increase the efficiency of the local department.

THE MARNE MEMORIAL CAMPAIGN.

The campaign in this city and county for the Marne Memorial Fund the object and aims of which have been set forth in the local papers at different dates, is progressing nicely, with contributions coming in from all sources. It is freely predicted that there will be no difficulty in raising the county's quota. There are, however, a large number of people in the city and county who are able and doubtless desire to contribute to the fund, but have not yet done so. It is the earnest desire of those having the campaign in charge to have all contributions sent in at the earliest possible moment.

"We have received many interesting letters with the contributions," said one of the committee yesterday. "These show the appreciation on the part of our people of the heroic people of France and their traditional friendship for America, which has successfully withstood the wear and tear of war and circumstances through all the years. The response to the campaign has so far been very generous, and yet we know there are dozens of people, men and women, who will like to make a small contribution to the campaign. We are ready at all times to accommodate all who desire to contribute."

REAL ESTATE TRANSACTIONS.

Through the Paris Realty Co., Ed Stump sold Friday to Wm. R. Taylor, his residence on Fifteenth street for a price not given out for publication.

Ralph Menfee purchased of John C. Hays a cottage on Virginia avenue for \$1,650, and two vacant lots adjoining, belonging to Mrs. James H. Moreland, for \$400.

Mr. and Mrs. Robert M. Johnson will erect a modern home on the lot on Mt. Airy avenue recently purchased from George W. Stuart. Excavation for the foundations began last week.

Through the Harris, Speakes & Harris real estate agency, Harry D. Campbell sold his home on Henderson street to John C. Bedford, for \$3,500. The purchaser will get possession in a few days.

M. B. Fraley, who recently purchased a lot in the Fairview Park Addition to North Middletown, is planning to build a handsome home on the lot. J. N. Crockett will build an eight-room residence on his lot in the same addition this spring.

Harry L. Mitchell & Son, real estate agents, sold for M. J. Lavin a house and lot located on Vine street, to James Mernaugh, for \$3,250. They also sold for Mr. Lavin a house on Eighth street, to Geo. Christopher, colored, for \$1,500. This makes eleven pieces of city property sold by this firm, newcomers in the real estate field, this month.

Mr. and Mrs. I. D. Thompson purchased privately of B. M. Renick, Saturday, the two-story frame residence on Duncan avenue, known as the A. P. Allis home, at a private price. The home is at present under lease to Geo. W. Preston. As soon as possession is given the new owners will raze the building and erect on its site a modern up-to-date bungalow.

The handsome brick residence at the corner of Main and Eleventh street, belonging to Mrs. Ed. C. Keeler, of Lexington, formerly of Paris, was sold at public auction Saturday by Auctioneer M. F. Kenney for the Harry L. Mitchell & Son real estate agency. James McClure, of the First National Bank, was the purchaser, at \$10,100. The home is one of the most desirable ones in Paris, being well located and well improved. The sale was advertised in THE NEWS.

THE AMERICAN LEGION "DRIVE"

Membership in the Patriotic League of Kentucky, an organization back of the American Legion, which stands for one hundred per cent. Americanism, will be given every Paris and Bourbon county man who subscribes to the American Legion drive, which began yesterday and will continue through the week. The campaign is being conducted under the supervision of Chairman A. B. Hancock, which is a guarantee that everything will be done in right time and in the right way.

This campaign is carried on to raise a fund for furthering the interest of the American Legion in the State. Former service men will not be asked to subscribe or to solicit subscriptions. A quota of \$1,000 has been assigned to Bourbon county, and Chairman Hancock stated that he anticipated no difficulty in getting this amount. Solicitors will make it a point to see everyone, so that none need feel slighted. The general aims and objects of the campaign have been published in the local press often, and will need no outlining.

BOYS' ROB TILL

Two small boys, hardly in their "teens" were arrested Friday by Chief of Police Link and Patrolman Lusk, charged with robbing the cash drawer of the Western Union Telegraph office of about six dollars. They also took a kodak belonging to Robert S. Porter, news correspondent. The money and kodak were recovered and restored to their respective owners. On account of their youth, the boys, who had been acting as messengers in the office, were not prosecuted, but it is likely they may be sent to the Reform School at Greendale.

CITY COUNCIL PROCEEDINGS

At the recent meeting of the Paris City Council, presided over by Mayor E. B. January, and only one absentee, Councilman Moreland, considerable business of interest to the public was transacted. After the transaction of routine business the Council took up consideration of the ordinance providing for the sale of \$35,000 worth of school bonds, the issuance of which was authorized by a special election held in December. The ordinance was adopted by a full vote. Chairman M. Peale Collier, of the Board of Education, appeared before the Council and discussed the needs of the Board for the ensuring term, of the progress made in building the additions to the white and colored school and the necessity for an increase in teachers' salaries. He also submitted a statement showing expenditures and receipts for the public schools from July 1, 1918, to July 1, 1919. A committee composed of Councilmen Hugh Brent, Williams and Doyle was appointed to meet with the Mayor and the members of the School Board and consider what should be done to meet the demands of the Board for financing the schools.

Mayor January informed the Council that residents of Duncan Avenue were ready to pay their street assessments as soon as the defective construction work was remedied. City Engineer Boerner was instructed to pay thirty-five cents an hour for labor employed on public work.

Building permits were issued to the following: Robert M. Johnson, residence on Mt. Airy Avenue, to cost \$8,000; H. D. Myers, stable, Houston Avenue, \$250; Brown Lee Yates, storeroom, Main street, between Nineteenth and Twentieth streets, \$1,000; Howard Stewart, cottage, Gano street, \$500; J. J. McCarthy, outbuilding, Cypress street, \$500.

Representatives of five different auto fire-fighting machines appeared before Council and submitted estimates and explained the merits of their apparatus. The Council decided to purchase a modern up-to-date auto fire fighter, with pumping attachment, the pump to have a capacity of 80-horse power. The new machine is expected to cost in the neighborhood of \$12,000. Mayor January and members of the fire committee will visit the manufacturing plants and inspect the machines in actual operation before deciding which to purchase.

Mr. A. Clemmins, of Louisville, representing the Kentucky Actuarial Bureau, appeared before the Council and made the statement, that since inspecting the city fire department, and the water works, and having been given the assurance that the city is to purchase a new fire fighting machine, the Bureau will change Paris from an

PARIS COLORED STUDENT WINS SECOND HONORS.

Lexington won the Blue Grass Oratorical contest of colored high school speakers Friday night at Frankfort. Schools taking part were Paris, Winchester, Mt. Sterling, Frankfort, Lexington and Bloomfield. John Stafford Campbell, a senior student of Russell schools, was awarded the Roberts medal as the winner of the contest. The judges were, Superintendent Ireland, of the Frankfort Schools; one member of the school board, and a judge of the court, Julius Gardner, representing the Western High School, (colored) of Paris, was given second place.

Eight to a seventh class city, which will have the effect of making a saving of eight per cent. in the amount of insurance paid by Paris property holders. After consideration of a few minor matters the Council adjourned.

NEWSPAPER PUBLISHER IS NOT A PROFITEER.

In these days of profiteers and charges of profiteering it is a pleasure and a bit of easy work for the publisher of a newspaper to demonstrate that he is not a profiteer.

The suit of clothes that you used to get for twenty dollars costs you sixty now; the sugar that was twenty pounds for a dollar costs you fourteen to eighteen cents a pound now. The newspaper costs you what it did ten years ago—two dollars a year. It isn't enough, but you are getting a square deal from the publisher and a little bit more.

Operation costs in newspaper plants have advanced pretty rapidly too. The item of paper alone has advanced tremendously. News print was three cents a pound a few years back. It is now ten and a quarter and scarce at that. Finer grades of paper have advanced proportionately. Every other item of operation expense has increased. And still the paper costs you but two dollars a year.

Your printer is not a profiteer. He will prove it to you at any time. He fulfills a want in the community and is entitled to a fair profit on his investment and work. Don't kick if your letter-heads and bills cost you more than they cost your father. It costs the printer more to print them.

HAS WINTER WORN YOU DOWN?

Sickness That Lingers, or Strain of Caring for Others, Makes Spring Days Dangerous

GET BACK YOUR STRENGTH

Red Blood Means Old-Time Vigor, and Pepto-Mangan Builds Rich Red Blood.

Perhaps you've been ill this winter—or others in the family have, and you've worn yourself out with extra burdens. And now your strength is slow to return.

Week after week you've felt too tired for anything, and have looked ill, too—color bad, eyes dull and no enthusiasm.

When you don't feel well you are not well. Probably what you need right now is the good blood tonic, Pepto-Mangan. Physicians everywhere recommend Pepto-Mangan for run-down, anemic people. Ask your doctor about it. Pepto-Mangan supplies the things that blood-starved people lack. It puts iron and vigor in the blood. It paints the cheeks in Nature's way, and restores the hearty appetite.

The blood is naturally sluggish in the Spring and the whole family would profit by taking Pepto-Mangan, which tones up and builds up. It is pleasant-tasting and soon makes you feel better. Your own druggist has it ready for your call, and in both liquid and tablet form, just as you prefer.

But to be certain that you get the genuine Pepto-Mangan, ask for it by the full name, "Gude's Pepto-Mangan." Look for the name "Gude's" on the package. (adv)

DON'T GO TOBACCO CRAZY

Tobacco prices keep on reaching new heights and breaking record. The farmer who raised a good crop of tobacco last year certainly made money, whatever may have been the lot of the farmer who grew grain or fed live stock.

But because this is true, let us not lose our sense of proportion or forget the fundamentals of good farming. The demand for tobacco is likely to remain good for a year or two; but a large increase in the supply is to be looked for. Many farmers who have been growing tobacco are planning to increase their acreage, and the crop is being planted by many farmers who have not been growing it. There is danger here—a big crop might easily send the price down below the cost of production.

The farmer who has found tobacco a good money crop can safely plant it again this year—if he plants it as a money or surplus crop only. He is taking a dangerous risk if he plants so much tobacco that he cannot raise the wheat and corn, the hay and truck, the hogs and cattle he needs for his own use. The only safe farming is that which makes certain of the farmer's living first of all; and the farmer who expects to buy his living out of the proceeds of a tobacco crop is taking a gambler's chance. Tobacco in speculation is all right; but this is no time to go tobacco crazy.

A TIMELY SUGGESTION

The next time you have a cough or cold try Chamberlain's Cough Remedy. It is pleasant to take and you are sure to be pleased with the relief which it affords. This remedy has a wide reputation for its cures of coughs and colds.

There will be one loud, united cheer over the downfall of the sugar profiteer.

LIABLE TO INDICTMENT FOR UNLICENSED DOGS

An active campaign to rid the city and county of all unlicensed dogs will be undertaken by Sheriff Will G. McClintock and deputies, following the adjournment of the Bourbon Circuit Court. Dogs found without their license tags will be taken in charge and will be subject to the enforcement of the law. Scores of dogs have already been killed by the officers, but hundreds yet remain. The records in the office of County Clerk Pearce Paton show that the number of licensed tags applied for is several hundred short of a year ago, while it is thought there are more dogs in the county now than ever before. The following letter has been sent to Sheriffs of all the counties:

"Dear Mr. Sheriff: I desire to call your attention to the duties imposed upon you in carrying out of the Dog Law, which law has been sustained by the Legislature, and is in full force and effect on our statute books.

"Every dog should be licensed, and when the owner fails to do so, he or she is a violator of the law, and is subject to the penalty thereof. Under the law it becomes your duty to seize and impound all unlicensed dogs or dogs running at large that are a menace to the livestock industry. If you could give publicity to the fact that all unlicensed dogs are subject to being killed on sight, this would give the owners time to procure the license to protect their dogs.

"If they do not license their dog, indictments will certainly be brought against them for violation of the law, and you are called upon to do your duty as prescribed by the law. Looking to you to do your duty as prescribed by the law with judgment and accuracy, I am, Yours Very Truly,

"W. C. HANNA,
"Commissioner of Agriculture."

QUESTION CLEARED UP

Paris Readers Can No Longer Doubt the Evidence

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Paris' pertinent question has always been, "Has anyone here in Paris been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

Geo. McCandles, Second Street, Paris, says: "My kidneys were inactive and I had backaches. Doan's Kidney Pills put a stop to all the troubles and they gave me complete relief."

NO TROUBLE SINCE.
Over four years later, Mr. McCandles said: "I haven't had any need of a kidney remedy since I last endorsed Doan's Kidney Pills. I consider myself permanently cured."

HAZELWOOD SANATORIUM NOW A STATE INSTITUTION.

Hazelwood Sanatorium is now a State institution for tubercular patients, according to the bill passed by the General Assembly last week.

The Sanatorium is one of three in Kentucky, but it is the only one which has been receiving people from over the entire State, as the other two are open only to county cases. The law provides that the county from which the patient comes shall pay for his treatment if he is not able to do so.

The Federal Government offered to buy Hazelwood as a Sanatorium for its ex-service men. However, it was thought better to keep it as a State institution for the need of those who could not receive treatment under any other circumstances.

Hazelwood was formerly maintained and financed by the Louisville Anti-Tuberculosis Association, which in turn is financed by the Welfare League. Since the Sanatorium has been taken over by the State, the Association is planning a progressive educational program to be carried out, first, through the city and then through the State in regard to the white plague, which is more prevalent in Kentucky than in any other State in the country. Archibald MacDonald, of Seattle, has been secured as Executive Secretary and the program will be financed by the funds which are now at hand and which have usually been spent on Hazelwood.

A few tablets of "Pape's Diapepsin" brings relief almost as soon as they reach the stomach.

"Pape's Diapepsin" by neutralizing the acidity of the stomach, instantly relieves the food souring and fermentation which causes the flatulence, fullness, or pain in stomach and intestines.

"Pape's Diapepsin" helps regulate disordered stomachs so favorite foods can be eaten without causing distress. Costs so little at drug stores. (adv)

Economy is also the road to lower prices.

DOESN'T HAVE TO LIE DOWN THRU DAY NOW

This Woman Can Keep Going All Day Since Taking Vola-Tonic.

Mrs. Lou Anderson, 119 West Fourteenth street, Cincinnati, O., is stronger and better since taking Vola-Tonic. "Builder of Strength," and doesn't have to lie down and rest during the day now.

"I was weakened and run down," Mrs. Anderson said. "Lots of times I was to be weakened and tired out during the day that I had to stop my housework and go lie down and rest."

"My appetite was poor and my stomach was out of order. It didn't make any difference how good a meal I cooked I didn't care for it. The little food I did eat didn't agree with me. Gas always formed on my stomach after meals and caused a pressing against my chest and pains. I belched a great deal after meals also. I was badly troubled with constipation, too."

"Within two days after I started taking Vola-Tonic, I felt better and stronger. My appetite returned and I found that I could eat without distress afterward. Gas didn't form on my stomach after eating as before and the pressing against my chest and pains disappeared. The constipation left me very quickly also."

"I kept on taking Vola-Tonic and now I am much improved. I'm much stronger and don't have to stop my housework and go lie down and rest during the day now."

"I can eat about anything I cook, too, and I enjoy my meals. Even the smell of food is different. Everything seems appetizing."

"Vola-Tonic, 'Builder of Strength,' has helped thousands of weakened, run down men and women back to strength and health and it will do for you what it has done for others. Get Vola-Tonic—TO-DAY!"

Vola-Tonic is being specially introduced in Paris at Varden & Son's. (adv)

WOMEN'S CAMPAIGN AGAINST HIGH COST OF LIVING.

Mrs. Burt L. Sims, of Lexington, has been made acting chairman of the Seventh Congressional District for the campaign being waged against the high cost of living in this State by the Department of Justice. This includes Paris and Bourbon county.

The appointment was made by Mrs. A. H. Morshead, formerly of Paris, State Chairman, because of the indefinite absence from the State of Mrs. Thomas H. Shelby, of Fayette county, who was district chairman under the Kentucky Fair Price Commission before the Women's Division of the Department of Justice was organized.

The organization of the district is being rapidly completed, and Mrs. Sims will announce her county and city chairmen and committees this week. The Seventh District is the first in the State to be organized, and the complete corps of workers is expected to be ready for the initial campaign for economic marketing and preservation of meats, groceries and other necessities to eliminate waste and extravagance, which will begin April 5.

Mrs. Sims has a long record of patriotic service and efficient club work which began in her native city of Cartersville, Ga.

She was county chairman of the women of Scott county for the Victory Loan, and her workers sold the majority of the bonds, as the campaign came at a time when the men were very busy. She was an active worker in all the Liberty Loans, was urged to become a field teacher of surgical dressing for the Red Cross, after receiving a certificate for her work, and is eligible for the Red Cross badge for war service.

Mrs. Sims is president of the Georgetown Woman's Club, as the members refused to accept her resignation when she moved to Lexington, and takes an active part in all civil movements in the Scott county seat.

Famous American Patriot.

In 1832, on the 14th of November, Charles Carroll, the last surviving signer of the Declaration of Independence, died at the age of ninety-six. He studied law in France and England and returned to America at the age of twenty-seven, where he soon became known as an able political writer and a strong advocate of liberty. Twenty-two years before his death he retired to private life.

Business of Criticism.

Its business is simply to know the best that is known and thought in the world, and, by in its turn making this known, to create a current of true and fresh ideas. Its business is to do this with inflexible honesty, with due ability; but its business is to do no more, and to leave alone all questions of practical consequences and applications—questions which will never fail to have due prominence given to them.—Matthew Arnold.

Precept and Practice.

Many a man, who talks about getting a broad, clear view of the beautiful world spends most of his days sitting behind an unwashed window.—Washington Star.

CHANGES OF ADDRESS

Since the first of this month many of our subscribers have moved from one section of the county to another, and from this county to other counties. Some of them have taken the trouble to give us their new locations, while others have not.

The rural mail carriers and the postoffice department have very kindly notified us in many instances of addresses. We ask that all subscribers changing their place of residence notify us promptly, as we may keep the mailing list and our records straight and that the paper may not be taken out by some one not entitled to it.

When a subscriber fails to notify us of a change of address and fails to receive the paper regularly, it is his or her fault, and not ours. Notify us promptly, and we will gladly make the necessary change.

FORMER PARIS STAR TO LEAD LEXINGTON.

Basil Hayden, son of Mr. and Mrs. J. W. Hayden, of Paris, and graduate of the Paris High School, will be captain of the University of Kentucky basketball team for 1921. Hayden, who was 1920 forward on the University team, was elected last week at a meeting of the five men of the 1920 squad awarded the coveted "K." Lavin, formerly of Paris, will also be on the team.

It was announced early in the season that Hayden would make an effort to complete his course in industrial chemistry at the University in June, but his election to the captaincy of the University basketball team makes it seem probable that he will be at the University for another year.

Hayden started with the Paris High School team and was with the Transylvania Crimson a year before joining the Wildcats. He was the high score man for the Kentucky quintet during the 1920 season. He is extremely popular, both in college and social circles. His many friends here predict a great career for him in the future.

CONFEDERATE HOME DESTROYED BY FIRE

LOUISVILLE, KY., March 29.—Fire Thursday night destroyed two main buildings of the Confederate Veterans' Home at Pewee Valley, 20 miles east of Louisville. The principal building, a huge three-story structure, and the hospital building were destroyed.

One hundred and twenty inmates of the Home, who were in the building at the time the fire started, escaped.

Forty inmates of the hospital also were removed to safety.

The fire spread to the residence of G. T. Blackley, which also was destroyed.

Swept by a high wind the fire spread rapidly among the frame structures, and intense excitement prevailed.

Residents and farmers for miles around went in haste to the scene to give aid, and fire apparatus from Louisville quickly was despatched. A number of the aged men at the Home were terrorized by the fire, and were sheltered and cared for at residences in the neighborhood.

The fire started at the dinner hour. A number of the more robust veterans hastened to aid their infirm comrades. The Home was covered by insurance.

SCIENTISTS EXPLAIN CAUSE OF NORTHERN LIGHTS

The aurora borealis, so plainly visible in the northern sky last Monday night, was due to a tremendous magnetic disturbance of the sun, Professor Henry C. Lord, head of the Department of Astronomy at Ohio State University declared. He said a look at the sun through the University telescope revealed a chain of spots about 230,000 miles long, resulting from the magnetic disturbance.

IT PAYS TO TRADE WITH HOME MERCHANTS

It pays to trade at home. We are so accustomed to reading that statement that it makes little impression, but is still true as ever. Foreign concerns selling directly to local customers take just that much away from the wealth of the community never to return it. If the same thing costs a little more to buy from the local merchant, which it rarely does, you are still making a good trade to buy from him, for the money stays at home and eventually some of it returns to you in your business. There are many things of course, which are not enough in demand to justify the home merchant in carrying them and these can be bought elsewhere with no disadvantage to anyone. But it takes a spirit of each for all to make a community prosperous in a business way, and buying your goods away from home is not in accord with that spirit.

Scored a Success.

My four-year-old nephew was perfectly delighted with his grandfather's car and always cranked all his toys, and even himself, when sent on errands. He is particularly interested in anything mechanical and never misses any such conversation. One day he cranked the cat's tail, and was delighted when it turned and spat at him, for, he said, "There, I got an explosion that time."—Chicago American.

Kept Ignorance in Memory.

On the 5th of November, in 1500, Christopher Columbus, in spite of the incalculable services he had rendered to Spain, was taken into Cadiz in fetters. King Ferdinand and Queen Isabella were moved at the sight and commanded that he be released. Columbus, however, was unable to forgive the insult, and until the time of his death the ignominious fetters were hung in full sight on his walls as a reminder of the ingratitude of his sovereigns.

At any rate, we have found out a lot of things not to do in the next war.

GIRLS! DRAW A

MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifying. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on bottle. (adv)

Correct Easter Attire

To appreciate how well we are prepared to provide for your Easter wardrobe it will be necessary to view our displays and give them a leisurely inspection. You cannot ask us for some particular garment, suit, coat, waist, dress or skirt, in some particular style and material but that we can present you with, at a very attractive price—a price which will be unusually low for a garment of such exceptional high quality. Our styles are individual; no other store can show anything like them; so if you make your selection here you can feel absolutely certain that you will not see a garment exactly like yours in every way on those you meet along the street on Easter Sunday.

KIDDIE CLOTHES

When mothers desire garments for the little ones of a quality much better than they can purchase elsewhere they turn their steps in this direction.

Here they know they are always sure to find just what they desire, and at a price thoroughly in harmony with the amount they intended to lay out. As evidence of this we cite these telling examples:

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO-TRACK WAGON

Why Should You Own a

Standardized Weber Wagon?

Sold in the Southland since 1845

Because:

It will last longer than the old-style 60-inch wagon;
It will run more smoothly than the old-style wide-track wagon;
It will help maintain the uniform 56-inch ruts made by the automobile;
It will save automobile tires, and reduce repair bills on both wagon and auto;
It allows the wheels to follow road conditions without any twisting strains;
It has the best constructed front gear ever put on a wagon;
It will identify you as a progressive farmer;
The 60-inch wagon has been out of date since all motor vehicles were made only in 56-inch track;

And—most important of all—you get more real value for your money when you buy a fifth-wheel, swivel-reach-coupling standardized, auto-track Weber wagon than in the purchase of any other wagon on the market.

The next time you happen to be in town drop in and let's have a little wagon argument.

RELIGIOUS.

—The congregation of the Paris Presbyterian church will not hold their regular prayer-meeting service Wednesday night, but will meet with the congregation of the Methodist church in the revival service being held there.

—Prof. Lee Kirkpatrick, Superintendent of the Paris Public Schools, delivered a lecture Sunday morning at 9:45 o'clock to the members of the Men's Bible Class of the Paris Christian church, of which he is teacher. Prof. Kirkpatrick spoke in an instructive and entertaining manner on the subject of "A Man's Contribution to Christian History."

—The revival meeting in progress at the Paris Methodist church continues with increased attendance and growing interest. At the Sunday night service there was hardly standing room. Up to date there has been a total of thirty-nine additions. These will be received into the church next Sunday morning. The meeting will continue through the week, ending next Sunday night.

—While "over the top" may not be exactly the phrase to use in a church campaign, it is the one most fittingly to be used in connection with the Paris Presbyterian church campaign for its quota of \$10,000 for the Progressive Program of the church. In the canvass conducted Sunday the members of the church subscribed the sum of \$14,000, exceeding their quota for the 1920 budget by \$2,000. The contributions of several members who had not been seen or solicited will bring the sum to over \$14,000. The campaign was carried over in one day instead of covering the full time of ten days as had been allotted to it. The campaign had for its object the raising of a large sum for home and foreign missions, and all expenses for one year. The officers of the church and the soliciting committees of the campaign were guests of the ladies of the congregation at a banquet Wednesday night, which certainly put them on edge for the drive Sunday afternoon. The pastor, Rev. T. S. Smylie, and all who had a part in the work felt greatly enthused over the successful outcome of the one-day's canvass and hearty congratulations were exchanged.

Y. M. C. A. BOYS' HEXATHLON

Craig Tucker, in the unlimited weight class, was the high point winner in the Boys' Hexathlon at the Y. M. C. A. last week. Tucker secured 420 points, winning the medal given by the Bourbon County Association, and the International Award given to boys securing 400 points or over. The following are the results:

80-95 pounds—Robert McCarthy, first, 351 points; Ray Cahal, second, 311 points; Eugene Conner, third, 303 points.

60-80 pounds—Eugene Strother, first, 269 points; William O'Neill, second, 267 points; James Merringer, third, 232 points.

95-110 pounds—Charles White, first, 249 points; John VanMeter, second, 234 points.

110-125 pounds—Norbert Friedman, first, 385 points; Robert Me-glone, second, 230 points; Howard Roberts, third, 227 points.

Unlimited—Craig Tucker, first, 420 points; Alonzo Jacoby, second, 333 points; Willard Tucker, third, 301 points.

Twenty-four boys competed, scoring a total of 4,287 points. The boys in the 80-95 pounds class scored 1,047 points for the "Y," being the highest for any group.

FIRE DEPARTMENT BUSY.

Children playing with matches in a buggy at the home of Thos. Woods, on Lillieston avenue, Saturday afternoon set fire to the vehicle, which was destroyed. The fire department responded to an alarm, and by quick work saved the barn from burning.

The department was called at 6:30 Sunday night, to the dwelling on Pleasant street, owned by Mrs. J. M. Earlywine. Sparks, presumably from a passing L. & N. engine, set fire to the roof, burning a small patch of shingles. The blaze was quickly extinguished.

CUMMINGS' SPEECH AT LOUISVILLE

Chairman Of Democratic National
Committee Delivers Address At
Get-Together Meeting

THE SPEECH PRINTED IN FULL

LOUISVILLE, KY., March 29.—The Get-together movement, or "Love Feast," of Kentucky Democrats at the Seelbach at Louisville last Thursday evening was one of the greatest political meetings in the history of the State.

Fully six hundred Democrats, women and men, were seated at the banquet, which was served in the large assembly room on the top floor of the hotel.

The speakers included Homer S. Cummings, chairman of the National Democratic Committee, Col. P. H. Callahan, Judge Alex P. Humphrey, and Mrs. Cora Wilson Stewart. An orchestra was heard while the banquet was being served.

After the speaking, resolutions were adopted endorsing the National Administration, and scoring the Republican Congress for its failure to offer even a resolution of sympathy for the President of the United States during his long and critical illness, brought on by over-work and devotion to the interests of the United States.

The speech of Mr. Cummings is reproduced herewith in full, because it is one of the ablest that has been heard anywhere and covers the Democratic position as no other document could do. We hope every reader of The Kentuckian-Citizen will take time to read the speech. It will repay the time spent. Women, especially, should read it, for they will be called on to vote in the November election. They will want to know in more detail than ever before what the Democratic party stands for. And every Republican should read it.

Mr. Cummings' Great Speech.

Following is the address of Homer S. Cummings, National Democratic chairman, in full:

"I am happy to know that this great campaign, which has already commenced, will permit us to seek the inspiration, the help and the loyal co-operation of the women of America.

"In the campaign of 1916 we carried ten out of the twelve suffrage States, and we made great gains in the other two States. There are manifest reasons for this. It was not only because they were moved by the clarity of manner in which she was able to state great principles, but it was also because the women of America are instinctively Democrats.

"The Democratic party possessed an appeal to the women of America because of the social aspects of the programme which had been outlined by its great leader and which had been carried to such a successful culmination. The women knew by some instinct, superior, I think, to sheer reason, that there was a great heart and great spirit and a great soul behind the legislative programme of the Democratic party.

Defines Democratic Party.

"If I were called upon to suggest the essential thing that distinguishes our party from the Republican party, I would say that our party is the party of service and the Republican party is a party concerned chiefly with material things. That is why the Democratic party possesses an irresistible appeal to those who have hearts; and the women of America always have a heart interest in great public questions.

"The Democratic party got its chance in 1912. We had wandered many years in the wilderness and we had become purged of all our sins and vices.

"We were an unentangled party; we were a free party; we did not owe allegiance to any class, to any group or to any special interest, and we were, therefore, able to take up with success the great legislative programme that we ultimately carried through.

"We found practically every department of government in need of some sort of reform. We passed an income tax and made it a permanent part of the revenue-producing agencies of this country; we passed child labor legislation; we eliminated the graft and the favoritism and the inequities from the tariff system; we established a non-partisan tariff commission so that future revisions of the tariff might be made in the light of scientific knowledge accurately obtained.

Dollar Diplomacy Destroyed.

"Pan-Americanism was encouraged; dollar diplomacy was destroyed; the Philippine self-government bill was adopted.

"We went further than this: We passed the Smith-Lever bill for the improvement of farm condition. We then turned to labor. For the first time in the history of any government in this country, a Secretary of Labor sat in the Cabinet of the President of the United States. Regulations concerning hours of service were made applicable to Federal employees, and Federal employment.

Federal Trade Commission.

"We went further than this. We established the Federal Trade Commission in order that American business might proceed upon a fair and equitable basis. We passed the Clayton Act amending the Sherman Anti-Trust Act, and for the first time in the history of America, labor was treated, no longer as a commodity, but those who toiled were treated as human beings.

"Aye, this was the very Magna Charta of labor in this country.

"We went further than this: We

saw that the business of America was not secure. We saw that the Republican system of finance was a prolific breeder of panic.

"The Republicans were unable to revise it because the men who controlled the Republican party—the men who financed its campaigns—were interested in maintaining the old system; but this free party, this unentangled party of ours, under our great leadership, took up this measure to reform. And, let me tell you, my friends, it took all the driving power of the president to put through this currency revision. The great bankers of America, long affiliated with the Republican party, opposed the system. Their statesmen in Congress opposed it.

"The same people who today control the Republican party and who are slandering the President and warning the Nation against the League of Nations were the same statesmen who in that day and time opposed the passage of the Federal Reserve Act. It took statesmanship and courage to put this measure into the organic law of America. And so that law was ultimately passed, together with all these other acts, and let me remind you that they have operated so well in practice that no Republican leader has since arisen to suggest either their amendment, their alteration or their repeal.

Freed Commerce of America.

"These acts freed the industry and the commerce of America. It makes me weary to the soul to hear men babbling about the supposed fact that the Democratic party does not understand the business of America. Why, I say that the Republican party deliberately neglected, for more than a generation, the best business interests of America.

"How many bank failures do you suppose you had under the old Republican system? You had an average of one bank failure every twenty-one days for a period of nearly forty years. And after the passage of this Federal Reserve System, we had in 1915 four failures; in 1917 three failures; in 1918 one failure; and in 1919 no failures.

"Let me tell you, my friends, that he business men of America who fail to support the Democratic party are failing to support the best friend that the legitimate business interest of America ever had.

"And then the great war came on. "For a moment it seemed as if day light had dropped away from the world; but Democratic leadership rose to still greater heights. We supplied all the necessary legislation. We created the War Risk Bureau; we established the office of Alien Property Custodian; we created a Department for Vocational Training; we successfully mobilized the industry of America; we established the food and fuel regulations that were necessary to make America secure; we established the Shipping Board and created a merchant marine; prodigious loans were successfully floated; we created a National Council of Defense, and under the leadership of a great Democrat the American navy was increased until it became the second in size and the first in efficiency in the entire world.

"It is a source of pride to know that when it came to transporting millions of men abroad we never lost a man in a ship that was conveyed by the American navy.

Draft Tested Courage.

"It was not by the mere choice that an army of more than 3,000,000 men was raised under a selective draft law, when it took courage to propose such a measure to the American people. It was not by mere chance that more than 2,000,000 men were safely transported across 3,000 miles of Uboat infested seas, where well-armed, well-equipped, well-officered and indomitable in spirit, they turned the tide of battle, won imperishable glory, and triumphed in the greatest war that the world has ever known.

"Please do not misunderstand me. This was America's war. These great things were carried forward under the stimulus of American patriotism and with the support of the spirit of our people; all this I freely and gladly acknowledge.

"But the time has come when, because of the slanders of the opposition, we are entitled to rise in the assemblages of our fellow citizens and call attention to the great fact that all these things were accomplished under the leadership of a great Democrat and under a great Democratic Administration.

"I do not know how others may feel about it, but as for myself, I am proud to be an American citizen. I am proud of our great army. I am proud of our great navy. I am proud of the power of my country and the manner in which that power has been used. I am proud of the heroism of American men; yes, and American women. And I am proud, incomparably proud of the triumphant and the inspired leadership of President Woodrow Wilson.

Slander Is Foe's Weapon.

"And what is the programme of the opposition? Slander of the President and criticism of mere details. They have started ninety-two investigations since the Republican gained control of the Congress, and they have spent \$2,000,000 in "smelling" committees for the purpose of ascertaining whether or not there has been any graft in the conduct of the great war.

"They have wasted the \$2,000,000, but they have demonstrated that this was the cleanest war ever fought in the history of civilization. The finger of scorn does not point to one single Democratic official in all the broad America—and they seem to be sorry that this is so. I am proud that it is true. I want to remind you that it does not lie in the mouths of those who conducted the Spanish-American War to indulge in the luxury of criticism.

"What is there in this war to compare with the typhoid infested camps of the war of 1898, what is there in this war to compare to the paper sold shoe controversy of 1898, what is there in this war to compare to the embalmed beef scandal of the Span-

ish-American War? We have fought a great war for a great cause and we have had a leadership which has carried America to great heights of glory and power and splendor and honor than she has ever known before in her entire history. Partisan criticism of minor defects and individual officials may for a time attract superficial attention; but the plead eloquently for the Democratic cause.

"Yet there are men so small in spirit, so pitifully cramped in soul, that they say the war cost too much. Of course it was an expensive war. All war is expensive. We poured out our wealth in abundant measure, but I for one would have rather spent \$1,000,000,000 for shells that were never exploded than to have had one American boy on the firing line minus an essential cartridge.

Freedom Was Purchased.

"I may not understand the spirit of America, but I do not think that America cares to measure money against the blood of American soldiers, and when we talk about the expense of this war, permit me to remind you what we bought with it. We bought with it the freedom and the safety of the civilization of the world. And they say we were not prepared for war.

"They forget that democracies never prepare in the strict military sense, but that America prepared in the best possible manner. Wars are not fought by armies. They are fought by nations. It is a measuring of the economic strength of nations.

"The front line trench is no stronger than the force which lies behind the trench. It reaches back to every farm, to every village, to every counting-house, to every factory, to every home. America prepared by making economic life of America sound.

"Where would we have been if this war had broken out, and we had not prepared so that our farmers were able to feed the armies of the world?

"Where would we have been if labor had not been prepared to follow the leadership of the President? Where would we have been if we had not established a currency system which made it possible for us not only to supply our own needs, without shock or strain or panic, but the needs of our Allies, and in the process, convert America into the greatest creditor nation that the world has ever known?

Right To Be Proud.

"These are stupendous accomplishments, and we have a right to be proud of them. I am not only proud to be an American citizen, but I am proud to be a member of the Democratic party. I have no apologies to make for being a Democrat, but if I were a Republican I should have an abundance of apologies to make.

"The Republicans have now been in control of the Senate and the House for eight months. They went in, under false pretenses. They outlined an elaborate programme of reconstruction that looked very well in the newspapers. They have not only delayed and indefinitely postponed the peace of the world, interfered with American commerce, American trade and brought the rate of exchange tumbling down to a point hitherto unknown, but aside from railroad legislation of doubtful value, they have not passed one single constructive act since they had control of both branches of the Government.

"And now they are searching for new promises to make to the people in 1920. I am informed that the Republican National Committee has become so concerned as to its attitude on public questions that it has offered a prize (I might say, a reward) of \$10,000 to any young man, preferably under the age of 25 years who could write a winning platform. Personally I consider the compensation as totally inadequate. The task is impossible, and only the adolescent would undertake it. And I understand that the New York Tribune publishes each day a full page advertisement offering prizes ranging from \$10 to \$500 for individual platforms to be put in the Republican platform.

Extraordinary Political Ark.

"In addition to this, the astute and very active Mr. Hays has appointed a committee of 171 to go, two by two, into the most extraordinary political ark in history and there to write a platform for the Republican party. It is a most unusual conglomeration of political misfits.

"On that committee of 171 they have reactionaries, and Progressives, they have Taftites and Rooseveltians, they have Economists and Appropriationists, they have reservationists of all kinds, mild reservationists, they have bitter-enders, they have capitalists, and pacifists and militarists, and former chairmen of the Republican National Committee and seventeen women, all to go on a voyage of discovery for the purpose of ascertaining what Republican principles are.

"It is simple to give an excellent political recipe to the chairman of the Republican National Committee. Nothing will be gained by searching for new promises to break. There is one great duty that the Republican party owes to America, and that is the duty of justifying the existence of a Republican majority in the present House and Senate. They should pass the legislation which the President has called their attention to, twice in messages; legislation concerning profiteering, legislation concerning taxation, legislation concerning the returning soldiers, legislation concerning the great measures of reform and construction put forward by the Secretary of Agriculture.

"Months ago, before the President went to Europe, he suggested that they take council together and provide some legislation with reference to industrial unrest, with reference to the relation of labor and capital, and with reference to taxation. Republican leadership should suspend its programme of criticism and pro-

The Best Way.

If the show of anything be good for anything, I am sure sincerity is better; for why does any man dissemble, or seem to be that which he is not, but because he thinks it good to have such a quality as he pretends to? For to counterfeit and dissemble is to put on the appearance of some real excellence. Now the best way in the world for a man to seem to be anything, is really to be what he would seem to be.

OIL AND GAS RESOURCES OF KENTUCKY.

Prof. Willard I. Jillson, State geologist of Kentucky, has issued a new book entitled "Oil and Gas Resources of Kentucky." This book, which is most comprehensive of its kind ever issued in Kentucky, contains 650 pages, with 100 photographic illustrations and a large number of oil field maps, and is creating a widespread interest among Kentucky oil men. The widespread movement to develop new oil pools next spring due to the increased price of Somerset grade of crude oil, has caused an unprecedented demand for Prof. Jillson's work, which will necessitate the printing of a new edition that far outnumbers the first of 3,000 copies.

Only a small portion of the first edition remains, and copies may be procured gratuitously from the Kentucky State Geologist at Frankfort, by requesting Bulletin No. 1 and enclosing 20 cents postage.

GOVERNOR MORROW VETOES SEVEN MORE BILLS

Before going to Louisville, Governor Morrow passed on a large number of bills, seven of which were vetoed. The Governor will be out of the State for more than a week and the bills which he has not considered will become laws without his signature.

The Governor vetoed the bill providing that every County Judge in the State may appoint a stenographer for his use at a salary not to exceed \$900. The Governor is of the opinion that it would be a bad idea to create the office of stenographer to county judges as it would set a bad precedent and would result in a further extension of such offices and create more numerous offices in the State.

The bill of Representative Johnson to require filing of memorandum with County Clerk in order to prolong, as against creditors and purchasers, life of debt secured by lien, was vetoed by the Governor as the bill, he said, attempted to make a radical departure from the present law of limitation relative to suits on indebtedness secured by a lien of record.

As the bill of Representative Wash to prescribe duties of assistant inspectors of schools, and fixed the salaries of inspectors at \$2,000 was passed without an enacting clause, the Governor vetoed the bill.

The bill of Senator Burton to award \$50 reward for capture of auto thieves was vetoed by the Governor because he was of the opinion that it is not good policy to have general rewards of this character.

HAS HAD STOMACH TROUBLE FOR SEVEN YEARS.

Theodore Sanford, of Fenmore, Mich., has had stomach trouble for seven years and could not eat vegetables or fruit without pain in the stomach and restless nights. By taking Chamberlain's Tablets he is now able to eat vegetables or fruit without causing pain or sleeplessness. If troubled with indigestion or constipation give these tablets a trial. They are certain to prove beneficial.

IS A STRONG AND HAPPY WOMAN NOW

Strength and Energy Came Back,
Nerves Calm and Sleeps
Like Child

"As I now look back over my condition before I began taking Tanlac, I can hardly understand how I managed to hold out as long as I did," was the statement made recently by Mrs. C. B. Guthrie, of 612½ North Ninth street, Richmond, Va.

"I had suffered so much that I had almost given up hope and my mother had become alarmed at my condition," Mrs. Guthrie continued. "I had been bothered with indigestion so long that I had become dyspeptic and I could hardly retain any thing I ate. My appetite was so poor that I had to force myself to eat enough to keep alive. Gas formed on my stomach sometimes frightful and my heart would palpitate so bad I could hardly breathe. I got so dizzy at times that I had to take hold of the first thing near me to keep from falling to the floor. I was so short-winded that I gave completely out when I walked any distance or took the least exercise. I was so nervous that I could get but little sleep and I feared to go to bed. When I got up of mornings I always had a bitter taste in my mouth. I had pains all over my body and at times I was in such agony that I felt like every muscle and joint was stiff. Bursting headaches would come on me often and I felt miserable from morning till night every day that came."

"I had heard of Tanlac, but I didn't begin taking it until a friend of my mother recommended it so highly to her that she got a bottle for me. I have taken only one bottle, but the change that has come over me is remarkable. All signs of indigestion have disappeared and I can eat anything and everything I pleased without any bad after effects. I don't get dizzy any more and my heart action is normal and my breathing free and easy. My nerves are steady and I sleep like a child. The stiffness in my joints and muscles has all left me and I am no longer troubled with headaches. I have gained in weight, my strength and energy have all come back and I just feel like a new woman. I am a well and happy woman and all the praise for it goes to Tanlac."

Tanlac is sold in Paris at the Peoples' Pharmacy.

THE BEST LAXATIVE.

"My sedentary habits have necessitated the use of an occasional laxative. I have tried many, but found nothing better than Chamberlain's Tablets," writes George F. Daniels, Hardwick, Vt. Mr. Daniels is proprietor of the Hardwick Inn, one of the model hotels of New England.

SENATOR CUMMINS' SPEECH.

(Continued from Page 6)

ceed with the performance of its simple duty.

Calls Critics Destructionists.

"It is not necessary to pause to discuss the details of the Treaty of Peace and the League of Nations. The crucial test of those who discuss the League of Nations consists in the attitude which they disclose. Is the attitude sympathetic and helpful, or is it partisan and critical? Is the purpose constructive or destructive? Is an honest attempt being made to forward this great project or is it the purpose to hamper those who are engaged in the work so that the whole plan may fall into confusion and become ineffective?"

"The war had set a great task for the statesmanship of the world. The best thought of the world demanded that serious attempt be made by the leaders of the Allied Governments to formulate a Treaty of Peace, which should prevent the recurrence of war. Every rightful impulse of the human heart was in accord with that purpose. In the face of the greatest problem in the world, Republican leaders saw fit to remember only that they were Republicans."

"Many a time in history men have had an opportunity to speak for the freedom of a country or of a people, but never before, since time began, have statesmen been afforded the opportunity to speak for the freedom of the world."

"The issue involved the highest considerations of morality and humanity. The opportunity for a service was as great as the need of the world, and the failure to render it must stand as a reproach for all the time. I cannot understand how people differ about these things. Have we not learned anything from this great international cataclysm? Is the world to slip back to the place in which it was before the war? Has statesmanship no remedy to offer to American people and to the people of the world?"

Peace Dream Of Ages.

"From time immemorial men have dreamed of peace. Poets have sung it. Philosophers have written about it. Statesmen have discussed it. Men everywhere have hoped that the day might come when wars no longer would be necessary in the settlement of international differences. It has been the dearest dream that ever crossed the night of man's dark mind."

"Think of the endless debt piled on the back of a stricken world. Think of the shattered villages and the desolated fields, think of the 7,000,000 dead. Think of the widows and the orphans of all lands. Think of the 14,000,000 of our fellow creatures whom just creep brokenly through a shattered life. Think of the pitiful and unnumbered thousands whose darkened eyes will never gaze on the sun again and who will know the faces of loved ones only through the touch of groping fingers—the only vision of the blind. "How can America's heart be closed to these things? And yet what picture do we present today? A picture of America, disposed to haggle over the terms of a treaty to which the rest of civilization has already assented. We present a picture of America reluctant to fulfill its legitimate obligations. We see America pictured as a nation preparing to obtain the advantages of a League of Nations without accepting any of its responsibility. We see the Senate, under the guidance of Senator Lodge, dealing with a question affecting the destiny of the human race, in a manner which indicates that partisanship is the controlling motive."

Opponents Criticized Wilson.

"We behold men who criticized the President for taking six months to write the Treaty, unable themselves to reach a reasonable decision with reference to its acceptance or rejection after more than eight months of sterile debate. We see our commerce which began to seek every port in the world, still hovering about American shores, unable to put to sea with the confidence that America has its heart behind the commercial ventures of its citizenship."

"We find everywhere developing criticism, augmented antagonism, increasing partisanship and a general distaste for politics and politicians. America has paid and is still paying a staggering price for having elected a Republican Congress at the last election."

"Had a Democratic Congress been elected, or a Congress in sympathy with the President, the Treaty of Peace would long ago have been ratified. Innumerable avenues of trade and commerce would have been opened to American enterprise, and halted industry would have taken on new and hopeful life."

"America could then be proud, not only of her achievements in war and of the service which she rendered when civilization was in the balance but she could have been proud of the spectacle of America in the very van of civilization, leading the stricken peoples of the earth up from the valley to the higher plains of achievement and holding aloft, with undiminished faith, the flaming torch of human liberty."

WHY COLDS ARE DANGEROUS.

You are often told to "beware of a cold" but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

Determining the Seasons.

The periods known as the seasons are determined astronomically by the apparent movement of the sun (the real movement of the earth) in the ecliptic, or its journey around the sun. The passage of the sun across the equator, bringing on days of greater length than the night, marks the vernal or spring equinox for the northern hemisphere, and the autumnal equinox for the southern hemisphere, the seasons in the two hemispheres being always reversed.

World Has Many Lepers.

Neither geography, climate, diet, heredity nor any other known influence sufficiently explains the cause, the distribution or the behavior of leprosy. There is no discovered certain cure for it, and the cases of complete recovery, if there have been such, are rare. To most Americans it is happily only a name made familiar by Biblical mention or by reports of missionaries to far-off lands; and the estimate that there are 2,000,000 of these hopeless sufferers in the world comes to many people as a surprise.—Rochester Post-Express.

MILLERSBURG

COL. C. M. BEST EXPLAINS.

—Ed. THE NEWS:—The statement in THE NEWS of Friday by your Millersburg correspondent that the scarlet fever cases at the M. M. I. were doing nicely, is true, but that a few of the cadets had gone home, the majority remaining, the latter part is erroneous. There are two mild cases in the school. No cadet in the school has gone home. The sick boys are nearly well. No further cases are anticipated. The cadets are perfectly contented and expect to continue at school. A few day pupils remained at home a few days awaiting developments, but expect to return to-day.

Respectfully,

C. M. BEST.

—Mr. E. M. Ingels is able to be about the house.

—Dr. C. B. Smith and Miss Marguerite Redmon are improving.

—The Paris High School team and M. C. engaged in basket ball at the M. C. Gymnasium, which resulted in favor of Paris.

—Mr. and Mrs. Richard Huffman, of Cincinnati, are guests of the former's mother, Mrs. Mary Huffman, and other relatives.

—Mrs. Robert Johnson entertained the Bridge Club at the home of Mrs. Oscar Johnson. The out-of-town guests were Mrs. James Lail, Mrs. Clayton, Mrs. J. M. Sturgeon, Mrs. Hugh Campbell, Mrs. Geo. Watkins, Mrs. Jesse Alverson, all of Paris, and Mrs. Claude Sanders, of Carlisle.

—The Millersburg Dancing Club gave a dance at the opera house Friday evening. A large crowd was in attendance, and the floor was full of dancers during the entire time. A large number of visitors were also present. Soft drinks and sandwiches were served during the entire time by Mr. and Mrs. E. M. Derrickson.

—A community protracted meeting opened at the Methodist church Sunday evening. There will be services every afternoon this week and evening at 3:00 p. m. and 7:00 p. m. During the week, the afternoon services will be conducted by Rev. W. W. Morton, of the Presbyterian church, the evening services by Rev. Adams, of the Methodist church, while Elder W. J. Slater, of the Christian church, will have charge of the music.

—Mr. Martin Furlong, aged about 77, died Saturday at 9:35 p. m., after a brief illness, at the home of Mr. and Mrs. Russell Mitchell, on South Main street, of a complica-

tion of heart and kidney trouble. Mr. Furlong has been in poor health for the past eighteen months, but not until last Thursday did he take his bed. About a year ago his health was very poor, though he was able to go about the house. During the summer he improved considerably, while he was not well he passed a comparatively comfortable winter. He was a native of Mason county, born near Marshall station. When quite a young man he became overseer on the farm of Mrs. Sallie Grover, near Mayslick, with whom he resided until her death twenty-eight years later. In September, 1891, he came to Millersburg, and for two years resided in the family of Mrs. M. J. Caldwell. During this time he purchased from Mr. W. M. Layson about 160 acres of land, a part of the old Orr farm. For a time he operated the farm in person. After a few years he rented the farm, moving to town during the winter, and returning to the farm during the summer season. For a number of years he spent his winters with Mrs. Marguerite Mitchell, who at that time operated a boarding house here, but now of Paris. For the past several years he has spent the winter season with Mr. and Mrs. Russell Mitchell. He was a bachelor and is survived by one brother, Mr. John Furlong, and one sister, Miss Mary Furlong, both of Maysville. Last Thursday Mr. Furlong's condition grew worse and from that time on he failed rapidly. The remains were taken to the home of his brother, Mr. John Furlong, of Maysville, and after a short funeral service at 9:00 a. m. to-day at St. Patrick's church, at Maysville, they were interred in the Catholic cemetery at Washington.

DEATHS.

WILLS.

—Clarence Wills, of this city, left yesterday morning for Middletown, Ohio, to attend the funeral of his brother, W. S. Wills, which took place in that city yesterday afternoon. Wills, who was in the employ of a railroad entering Middletown, was killed by a railroad switch engine about two months ago. The body was placed in a vault, owing to severe winter weather prevailing at the time, and the funeral decided upon was held yesterday.

was the daughter of Mr. and Mrs. Henry Booth. Besides her parents, she is survived by her husband and four children. Mrs. Kissick was a lovely young woman, and her death is deeply regretted by many warm friends. The funeral was held at the family home, followed by interment on the family lot in the North Middletown cemetery, where a short service was conducted.

STEAGALL.

—Following an illness of less than a week, due to double pneumonia, superinduced by an attack of influenza, Miss Lorena Steagall, aged fourteen, died at the Massie Memorial Hospital, in this city, Saturday night. The young girl's mother, Mrs. Ben Steagall, is a patient at the same institution, where she recently underwent an operation for appendicitis. Miss Steagall is survived by her parents, Mr. and Mrs. Ben Steagall, both of this city. She was a bright, intelligent girl, and was a universal favorite.

The funeral was held yesterday afternoon, at 2:30 o'clock, with services conducted at the grave in the Paris cemetery by Rev. Arthur Fox, pastor of the Paris Baptist church. The pallbearers were six of Miss Steagall's classmates, Misses Anna Boone Patton, Katherine Wallingford, Nettie Dalzell, Emily Fithian, Virginia Woodall and Willie Fisher.

CHANDLER.

—Following a protracted illness, due to a complication of diseases, Orley L. Chandler, a former resident of Paris, died at his home on Chiles street, in Harrodsburg, Thursday.

Mr. Chandler during his residence in Paris was an employee of The J. T. Hinton Co., and was well liked for his many personal qualities. He had been in declining health for several years, and had spent some time in visiting various Southern places in search of health. Shortly after leaving Paris he went into the undertaking business at Harrodsburg, where he was the junior member of the firm of Chandler & Spillman. He was a son of Rev. and Mrs. M. T. Chandler, formerly of Paris, his father at one time having charge of the Methodist church in this city.

He is survived by his widow, Mrs. Haldon Hardin Chandler, of Harrodsburg; his parents, Rev. and Mrs. M. T. Chandler, of Richmond, three brothers, one of whom, Taylor Chandler, is a resident of this city, and three sisters.

The funeral was held at the Harrodsburg Methodist church Sunday afternoon at 2:30 o'clock, with services conducted by Rev. Frank T. McIntyre. The burial followed on the family lot in the Harrodsburg cemetery.

ENOUGH BILLS
BUT THAT WAS
ALL, SHE SAYS

Total Results Gained From Other Medicines Before Taking Trutona, Mrs. Franklin Asserts

LOUISVILLE, KY., March 29.—Another striking bit of proof of Trutona's remarkable reconstructive powers for overcoming after-effects of influenza, pneumonia and the like is to be seen in the following statement made recently by Mrs. A. E. Franklin, Louisville woman, of 1359 Preston street.

"After I had sufficiently recovered from the 'flu' to get out of bed," Mrs. Franklin said, "I found that I was very weak and a dizziness in my head whenever I would walk rendered me unfit to do any kind of work. I had been troubled with constipation for several years before I contracted influenza."

"Well, of course, I tried several different kinds of medicines for my troubles, but about the only results I got from them were bills. It seemed that nothing would do me any good. Finally I got a bottle of Trutona and began taking it. In addition to this I feel strong and find I can do more work than I've been able to do for a long time. That's why I recommend Trutona."

Just as Mrs. Franklin did, thousands of people have found Trutona to be everything that is claimed for it as a reconstructive agency system purifier and body invigorant, as well as an unsurpassed combatant for stomach, liver and bowel troubles, nervousness, sleeplessness, loss of appetite and the like.

Trutona is sold in Paris at G. S. Varden & Son's. (adv.)

man, who died in an Alameda, Cal., hospital, about ten days ago, arrived in Paris on last Saturday morning, and was taken to the home of his daughter, Mrs. Woodford Spears, on Stoner Avenue.

The funeral was held from the residence at 2:30 o'clock, Saturday afternoon, with services conducted by his former pastor, Rev. F. W. Eberhardt, of Georgetown, assisted by Rev. Arthur Fox, pastor of the Paris Baptist church. Preceding the funeral hundreds of the deceased's friends, both white and colored, called at the residence to pay their last respect to his memory. The interment took place on the family lot in the Paris cemetery.

The active pallbearers were Edward Spears, Charles S. Spears, Jo Varden, White Varden, W. M. Goodloe, Robert Hinton, Dr. John Miller Burnam and Catesby Spears. The honorary pallbearers were Robert C. Talbot, Thomas Henry Clay, George R. Bell, Henry A. Power, Charles LaRue, Silas E. Bedford, Dr. J. T. Vansant, Bruce Holladay, W. B. Allen and Buckner Woodford. A wealth of floral offerings and a large gathering of friends at the burial attested the esteem in which Mr. Stephens was held in the community in which he had been a potent factor, and in which his life residence had proven his sterling worth as business man, churchman and good citizen.
